WORK EXPERIENCE

Front-End Developer | Mest Ghana

May, 2025-now

Front-End Developer

- Developed responsive user interfaces using React and TailwindCSS, applying modern component-based architecture
- Self-initiated web development projects using HTML, JavaScript, and React to gain hands-on experience with real-world UI challenges

Administrator | ADVISE International

Dansoman | Aug, 2022-February 2025

Non-governmental Organisation

- Strategically coordinated logistics and transportation requirements for diverse programs and projects such as the annual end of year outreach program and empowerment program at Save Them young Orphanage
- Orchestrated a unique approach that streamlined operations, ensuring cost-efficiency and on-time execution, while significantly enhancing project impact and community satisfaction
- Applied Monitoring and Evaluation criteria in selecting the target group for the implementation of a STEM Clinic at Village of Hope, and at the same time gathered resource persons, trained volunteers and continue to monitor and evaluate how the project is positively impacting the youth.
- Implemented a comprehensive project and financial reporting system significantly enhancing decision-making processes, resulting in more timely and strategic decisions.

Sales Manager | Eggciting Solutions

New Aplaku, April 2021-December, 2024

Agri-business solutions

- Achieved successful market expansion through the innovative integration of digital and in-person channels and promotions, which resulted in a significant increase in market and customer engagement.
- Managed the day-to-day operations of the business, applying advanced management strategies to enhance efficiency and effectiveness
- Devised and executed comprehensive sales strategies and oversaw all aspects of sales operations

Administrator | El-Bethel Missions

Laterbiokorshi, Oct, 2018- Mar 2020

Primary School

- Oversaw daily operations at the school, taking charge of financial management which included expense regulation and payroll administration for all staff
- Successfully led the seamless relocation of the school's premises while playing a key role in establishing essential regulations, policies and the school's vision.
- Spearheaded the execution of various school events throughout the academic year.

Research Assistant | Science and Technology Policy Research Institute (STEPRI-CSIR)

37, Sep 2017- Aug 2018, National Service

Governmental institution that deals with policymaking to aid stakeholders in the scientific and industrial sector

- Acted as a point of contact for scientists and external stakeholders, proficiently recording meeting minutes, and facilitating structured communication.
- Aided with data collection, surveys and ensured seamless coordination between scientists and external partners
- Utilized Statistical Product & Service Solutions (SPSS) software for data interpretation, enhancing the accuracy of scientific analysis and reporting.

PROJECTS

Library App

My team and i developed a responsive library application and website upon request of an institution.
bookieappc.netlify.app/

Consultancy App

A consultancy app was created to enable individuals to be trained in time for interviews and for entering the working world.

team-apha.vercel.app

BuyVersity App

Collaborated with a team to develop a mobile application designed for university students, facilitating the buying and selling of used items within campus communities.

buyverityc.netlify.app

College Campus App

Developed a mobile application for a fictional college, showcasing its campuses, academic programs, and extracurricular activities to enhance user engagement and simulate real-world campus experiences.
